Hi Jeremy,

Hope you had a good weekend!

Any word yet☺?

Keith was just by asking me if all the talking points you sent, if there were any changes or revisions?

Thank you, b

Hi beryl –

FYI by way of update it is now looking next Tues or wed for our issuance of the FOV to PGV. I will know more by Monday and can give you an update then.

Best,
Jeremy

Hi Beryl –

Attached are some more materials from our communications strategy that we wish to share with you.

Hope it helps,
Jeremy

Hi Beryl –

As was discussed earlier, attached please find a copy of the desk statement that will help to provide some context for the FOV and letter. We may have more to share as the FOV release gets closer.

A question for you – I know that we all want Enrique Manzanilla and Gary Gill to have a chance to speak again before we roll this out. Should Enrique reach out to Gary or do you all want to close some loops with Gary before they speak? If the latter then will you try to arrange the call between Gary & Enrique as soon after as possible?

Mahalo,
Jeremy

Hi Jeremy,

I looked at the Tier II database and tried to google map the only Malakole address showing Hawaii Gas, the photo you send isn't the same area that popped up on google map (9-571 Malakole Street)

I emailed the facility rep, Zoe Williams about it—just waiting for her reply and if its theirs, I will ask for more info. How many bullets on property, what the product is, how much of it on site at any given time and whether they report a Tier II for the property.

I will email you back as soon as I get a reply from her

Ps

Nice to hear your voice, you must be tired from the trip

Have a good today, b

Hi Zoe,

Its Beryl☺

I wanted to ask you a question.....does Hawaii Gas have a storage facility located in Campbell Industrial Park, in the same area as Marisco, at the end of Malakole St.?

There are several compressed gas bullets on this property.

Thank you Zoe.

Have a good day!

Beryl
